

Reassessing Performance and Direction: Regions and Cities

By [Author's Name]

In an increasingly interconnected and globalized world, the performance and direction of regions and cities are more important than ever. Regions and cities are the engines of economic growth, social progress, and environmental sustainability. They are also the places where most people live and work.

EU Cohesion Policy: Reassessing performance and direction (Regions and Cities)

This book provides a comprehensive analysis of the performance and direction of regions and cities. It offers a critical assessment of the current state of affairs and identifies key challenges and opportunities. The book also provides recommendations for policymakers and practitioners on how to improve the performance and direction of regions and cities.

The book is divided into three parts.

- Part I provides an overview of the current state of affairs in regions and cities.
- Part II identifies key challenges and opportunities facing regions and cities.
- Part III provides recommendations for policymakers and practitioners on how to improve the performance and direction of regions and cities.

This book is a valuable resource for anyone interested in the performance and direction of regions and cities. It is a must-read for policymakers, practitioners, and researchers.

Part I: Overview of the Current State of Affairs in Regions and Cities

Part I of the book provides an overview of the current state of affairs in regions and cities. It covers a wide range of topics, including economic development, social development, environmental sustainability, and governance.

The chapter on economic development discusses the challenges and opportunities facing regions and cities in the global economy. It examines the factors that drive economic growth and identifies the policies that can promote economic development.

The chapter on social development discusses the challenges and opportunities facing regions and cities in terms of social inclusion, poverty reduction, and health care. It examines the factors that contribute to social development and identifies the policies that can promote social progress.

The chapter on environmental sustainability discusses the challenges and opportunities facing regions and cities in terms of climate change, air pollution, and water scarcity. It examines the factors that contribute to environmental sustainability and identifies the policies that can promote environmental sustainability.

The chapter on governance discusses the challenges and opportunities facing regions and cities in terms of governance. It examines the factors that contribute to good governance and identifies the reforms that can improve governance.

Part II: Key Challenges and Opportunities Facing Regions and Cities

Part II of the book identifies key challenges and opportunities facing regions and cities. It covers a wide range of topics, including globalization, urbanization, climate change, and inequality.

The chapter on globalization discusses the challenges and opportunities facing regions and cities in the global economy. It examines the impact of globalization on regional and urban development and identifies the policies that can help regions and cities to benefit from globalization.

The chapter on urbanization discusses the challenges and opportunities facing regions and cities in terms of urbanization. It examines the factors that drive urbanization and identifies the policies that can promote sustainable urbanization.

The chapter on climate change discusses the challenges and opportunities facing regions and cities in terms of climate change. It examines the impacts of climate change on regional and urban development and

identifies the policies that can help regions and cities to adapt to climate change and mitigate its impacts.

The chapter on inequality discusses the challenges and opportunities facing regions and cities in terms of inequality. It examines the factors that contribute to inequality and identifies the policies that can promote equality.

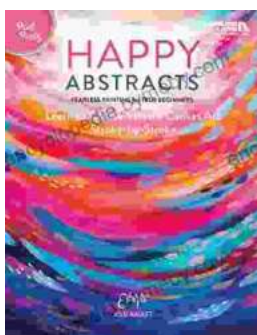

Part III: Recommendations for Policymakers
