In this sweeping and authoritative account, Margaret MacMillan tells the story of America's role in the First World War and its aftermath. Drawing on a wealth of new research, MacMillan shows how the war transformed America's place in the world, from a rising power to a global superpower.

MacMillan begins by examining America's entry into the war in 1917. She shows how President Woodrow Wilson's decision to intervene was driven by a complex mix of factors, including the sinking of the Lusitania, the Zimmerman Telegram, and the belief that America had a moral obligation to fight against tyranny.

Once America entered the war, it played a decisive role in the Allied victory. MacMillan describes the American Expeditionary Force's (AEF) heroic fighting in France, and she shows how the AEF's arrival helped to turn the tide of the war in favor of the Allies.

After the war, America played a leading role in the peace settlement. MacMillan shows how Wilson's Fourteen Points helped to shape the Treaty

of Versailles, and she describes the challenges that America faced in trying to enforce the treaty.

The Great War had a profound impact on America's domestic politics and society. MacMillan shows how the war led to the rise of isolationism, and she describes the social and economic changes that the war brought about.

The Great War is a magisterial work of history that will be essential reading for anyone who wants to understand America's role in the First World War and its aftermath.

Reviews

"Margaret MacMillan has written a brilliant and sweeping account of America's role in the First World War and its aftermath. This is a must-read for anyone who wants to understand the origins of the American century."
—Henry Kissinger

"The Great War is a masterful work of scholarship and a gripping narrative. Margaret MacMillan has written the definitive account of America's role in the First World War and its aftermath." — Niall Ferguson

"Margaret MacMillan is one of the world's leading historians, and The Great War is her masterpiece. This is a brilliant, sweeping, and authoritative account of America's role in the First World War and its aftermath. It is a must-read for anyone who wants to understand the origins of the American century." — David Frum
